AGRICAMPUS LA ROQUE

Public institution in Aveyron District, South West of France
Providing courses based on professional and practical work.
About 750 students and 70 professors

<https://agricampuslaroque.fr/>

RODEZ/AVEYRON district

4 MAIN SITES :

- **A Farm with up-to-date equipment** : 150 ha (371 acres) with 75 cows, 100 sheep, cereals, fodder..
- **A Food processing unit processing meat and fruits/vegetable products.**
- **A Center of apprenticeship welcoming working and adult students**
- **An Institution with 14 labs ((chemistry, physics, microbiology, biology, sensorial analysis, foreign languages) offering different courses and diplomas :**
 - A scientific A-Level (Equivalent to ICSE in India).
 - A technological A-Level (Equivalent to ICSE in India -BAC STAV course with a focus on animal production/agro-equipment/food processing/landscaping)
 - A Higher National technical diploma (1st 2 years of BSc – BTS course) in biotechnology/agricultural analysis, in food processing and in animal production.

The Higher National Technical diploma course provides the necessary scientific, practical and technical knowledge to allow students to become technicians or to continue their studies (BSc, Master, Doctorate, ...)

Hands-on Training is the main focus of the Higher National Diploma with a lot of practical work throughout the course. Students must have a total of 3 months internship in companies/farms/organisations/labs/etc...
